DIRECTOR OF CENTRAL INTELLIGENCE
Security Committee
Subcommittee on the Future

Serial: SCOF/0002/86

2 JAN 1986

MEMORANDUM FOR: Members, Subcommittee on the Future (SCOF)

FROM:

[Redacted]
Chairman

STAT

SUBJECT: Computer Security Review

1. The Subcommittee on the Future has been tasked by the DCI Security Committee to conduct a review of DCI policy on computer security. One of the goals is to determine what needs to be done in the next several years to insure the protection of intelligence sources and methods within the national policy framework of NSDD-145. Initially, we are to define the current computer security problems as they relate to the protection of sources and methods.

2. To complete this tasking, I shall be calling a meeting sometime in January to lay out the groundwork for this review. I am attempting to identify individuals with a technical background in this area who can brief us on the situation at this point in time. When I have identified these individuals, I shall notify you as to the date and place of our meeting.

3. I look forward to working with you in addressing this very challenging project. If you have any questions regarding the Subcommittee work in general, or this particular project, do not hesitate to call me or [Redacted] on [Redacted]
